

YES-EU 360/2p

360 kW DC Charger for Public Charging

CCS2 Standard

The YES-EU 360 kW (500A) Intelligent 2 Gun Charger is an excellent choice for high powered charging electric buses and other vehicles.

The modular architecture allows dynamic charging where maximum power can be directed to either outlet. This enables simultaneous two gun charging for single vehicles, reducing charging time.

Large 32" high brightness display and embedded Nayax VPOS touch payment terminal make this product an excellent choice for public rapid charger operators and logistics depots alike.

As a sister product to our popular 360/6 charging system, this new 360/2 two gun version is designed for continuous 24/7 charging operation at full rated power.

Technical Specification

Power rating	360 kW, 500A DC
EV connectors	CCS2, two guns
Charging cable	5 or 7 meters as standard
EV charging CCS	350A / 270 kW per gun (max)
Dual charging mode	Up to 500A / 360 kW (two guns)
Output Voltage	200~1000 V _{DC}
Power unit, size (w,d,h)	900 x 800 x 2135 mm
Power unit, weight	650 kg
Case safety ratings	IP54
Operating temperature	-30°C to +50°C
Main display	Samsung 32 inch FullHD
Payment terminal	Nayax VPOS Touch

Product variants
